

Coming Soon!

TRI-AD Web Site Registration Process Starts June 1st, 2010

As part of the process of staying current with best practices in data privacy and ease of use for TRI-AD's Web site, we are implementing two key enhancements:

- A registration process to enhance privacy protections; and
- A unified User ID and password that will work for all of your TRI-AD accounts.

Using TRI-AD's Participant Toolkit Web tools is totally voluntary, but they do provide some tremendous conveniences such as 24/7 account access, contribution and payment history, and more.

Starting June 1st, 2010 you will need to register the first time you access your account. For this one-time registration process, you will use your Social Security Number, date of birth, and home ZIP code to verify your identity.

Registration is done through a secure site, the transmission from your computer to ours is encrypted, and Social Security Number entry is masked. Once you have registered, your Social Security number will not be stored or displayed anywhere on the Web site. This is consistent with current standard practices for registration, and we are confident that it meets the highest levels of data privacy and security.

Registering Will Be as Easy as 1-2-3

June 1 or later, access the existing toolkit you wish to use from www.tri-ad.com, selecting the toolkit from the "Employees/Participants" drop-down. These pages aren't changing.

1. Click the "Register Now" button on the right to establish your account: identify yourself, set up your User ID and password.
2. Access your account at any time after that using your new User ID and password by logging in using the green box to the right.

Nothing Else Is Changing

Once you log in, you can access the same tools you currently use. All of the existing features and functionality will stay in place just as they are today. However, if you have more than one account type, you'll be able to access all of them from one easy portal point once you have logged in!

Questions?

Please visit our Web site at www.tri-ad.com over the next few weeks for additional information. We will post alerts and updates there.
